MYSORE REVENUE SURVEY AND SETTLEMENT DEPARTMENT.

Notification No. R. R. 616, *dated* 24*th March* 1931.

The undermentioned Departmental Circular *re*: the demarcation of hissas by the land-holders concerned is published for general information. Wherever Hissa Survey Operation is going on in connection with Record of Rights, land-holders are requested to get into touch with the survey staff working in the locality, as these have instructions to afford every facility to land-holders to demarcate their holdings on the ground. While it is not *obligatory* to demarcate hissas, land-holders are strongly advised to demarcate them in their own interests, to avaid subsequent encroachments and disputes.

(Circular No. 3570-74, *dated* 30*th May—8th June* 1929, *to all District Survey Officers).*

Under para 5 of G. O. No. R. 8166-226—L. S. 30-264, dated 25th April 1928, regarding the measurement of hissas, etc., it is seen that such hissas are to be treated as recognised shares of survey numbers.

Under section 110 of the Land Revenue Code, it is not obligatory to demarcate such shares separately. But if the Hissedar wishes for his own facility to demarcate his land, there is no objection to his doing so and his action will not amount to erection of unauthorised boundary marks.

To ensure uniformity in this matter (which will be alike to the convenience of the Hissedars and Inspecting Officers) the dimensions of hissa boundary marks may be fixed to be slightly smaller than those prescribed for full survey numbers under Rule 76 of the Land Revenue Rules. They will generally be stones of one cubit in length, half buried in the ground and the exposed portion white-washed.

Whenever hissas are formed, District Survey Officers will see that the Measurer informs the Hissedars accordingly, in case the latter wish to demarcate their fields.

D. SRINIVASA IYENGAR,
Superintendent.
